This floorplan tastefully separates the private and social spaces, with the master suite – and its private dressing room and exclusive outdoor space – opposite the large living area and laundry room. The ensuite bathroom boasts a water closet, walk-in shower, and free-standing bathtub, and there’s an additional private bathroom connected to the guest suite. The linear kitchen’s large island comfortably sits five. Multiple exposures and floor-to-ceiling windows ensure gentle, even lighting throughout, all while offering views of sunrise, False Creek, and the North Shore Mountains.
